Week 2 - Core - Worksheet | AI Conceptual Understanding - Understanding the System

Name: _____ **Class:** _____ **Date:** _____

Trace the pipeline

Fill in the three stages for the worked example your teacher showed.

Stage	What happens in the worked example
Input	
Process (model)	
Output	

Explain the reasoning

Write one or two sentences explaining how the input became the output. Use because or so.

_____

_____

_____

Spot the stage

Read each line and write which stage it describes: input, process or output.

Example	Which stage?
A voice recording sent to a speech app	
The model matches the sounds to words it learned	
The typed sentence appears on screen	

Exit ticket

Name the stages of an AI pipeline in order, give one example of an input, and say what the model in the middle does.

_____

_____

Challenge (stretch)

Challenge (stretch) - Explain how three different factors - the input given, the data the model learned from, and the way the system was designed - could each change how well the output performs. Use the word pipeline.

_____

_____
